Build-it ON

AI for Social Impact & Sustainability

Buildathon

BROCHURE

ABOUT THE EVENT

BUILD-it ON is an AI Buildathon organized by the Extension Work Team (EWT), TCET, under DLLE guidelines. The event aims to encourage students to design and develop AI-based solutions for Social, Sustainability, and Education challenges. Participants will collaborate in teams to create innovative prototypes that solve real-world problems using Artificial Intelligence.

The event includes:

- Online Idea Submission (participants submit their own ideas)
- Shortlisting Round
- Offline Buildathon (problem statement provided to shortlisted teams)
- Final Presentation

Theme

AI for Social Impact & Sustainability

Focus Areas:

Education problems
Sustainability challenges
Social issues
Smart solutions using AI
Innovation for society

EVENT TIMELINE

16-25th March — Registration online via Unstop

Announcement of shortlisted teams — 26 March

27 March — Problem statement release (24 hours before the event)

Main offline Buildathon at TCET — 28 March

REGISTRATIONS PHASE

ELIGIBILITY - All engineering students across Mumbai

- Mode: Online Registration

- Idea Submission: Teams must submit their own idea based on the theme
Every member of the team should submit the same ppt

- Shortlisting: Limited teams will be selected for the final Buildathon

- Final Round: Shortlisted teams will receive the problem statement 24 hours before the event

- Registration Fee: Completely Free

Team size : 2- 4

16 March - 25 March

TOTAL PRIZE POOL

10000+

& Exciting Goodies and Certificates

Certificates

All participants will receive official certificates of participation recognizing their contribution and effort.

Goodies & Swag

Exciting goodies, merchandise, and swag packs for participants to take home as memories.

Recognition

Top teams get recognized, featured, and gain networking opportunities with industry mentors.

FAQ's

- Who can Participate?

Any student with a passion for AI and social impact can participate. Teams of 2-4 members are recommended. Both beginners and experienced developers are welcome.

- What are the Tracks?

There are three tracks: (1) Education For All — build AI solutions for accessible education, (2) Sustainability — create AI tools for environmental sustainability, and (3) Social Issues — address pressing social challenges with AI.

- Is there a solo participant allowed?

No, solo participants are not allowed! Teams of 2-4 members are recommended.

- Is there a registration fee?

Registrations are completely FREE for all students across Mumbai!

- Will accommodation be provided?

No Accomadations will be provided by the event organizers.
